PRESENTER(S): Mike DiRé and Hank Thomas

In accordance with the Investment Management Plan, CalSTRS has established an allocation for investment real estate to 7% of the total assets. The primary role of investment real estate is to improve diversification of the overall investment portfolio. Secondary objectives are to generate an enhanced yield to the actuarial plan rate assumption, and to provide stable cash flows. The real estate portfolio will incorporate a combination of low, moderate, and high risk real estate investment strategies to implement the approved plan.

The table and charts below show the growth of the overall real estate portfolio over the past four years.
